

Adil waheed

FULLSTACK WEB DEVELOPER

I Have Lots Of experience in Web Development .I have full command on Web Development .I Have lot of ideas about UI/UX of web development. I got an extensive hands-on experience using Web development for two home based environments.

This experience polished my communication skills and taught me how to deal with a set of clients while working under pressure situation. I am a quick learner and like a leadership role when working as a team. Rest assured, your job would be my top priority once accepted.
